Transition from P2 to P3

SENGKANG GREEN
Primary School

New experiences for your child

- Bigger class size
- Making new friends
- Learning a new subject - Science
- Increase in the rigor of academic learning
- Involvement in CCA and enhanced curriculum on Thursday
- Greater opportunities for collaborative learning and fostering teamwork (eg project work)
- Developing and honing leadership skills through class and outside class opportunities

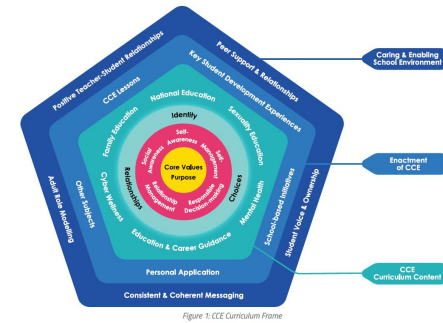

Key programme supporting your child

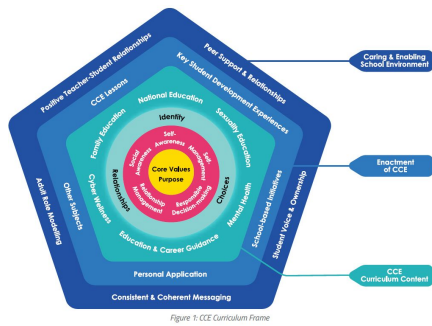

Objectives of the Programmes

- Support Teaching & Learning process
- Develop values, 21st century skills and social-emotional learning (SEL)
- Provide varied authentic learning experiences
- Relate learning to real-world contexts and make sense of the learning
- Develop a growth mindset in our students
- To be ready for learning at P4 and beyond

Holistic Approach to educating the Whole Child

Discover and build on students' interest and skills

Hands
(Skills)

Heart
(Values)

Develop ICAR²E values, SE competencies and 21st CC skills in students

Mind
(Knowledge)

Understand and stretch students' strengths and their knowledge

Importance of Developing Growth Mindset

Students need to:

- stay **confident** in the face of **challenges**
- set **achievable goals** for themselves
- continue to **persevere** and **work hard**
- develop **positive studying habits** and **routines** as early as possible

Gifted Education Programme (GEP) Screening

- The GEP programme caters for the needs of intellectually gifted students.
- P3 students are identified through a 2-stage exercise.
- Selected students will be placed on the programme at P4.

Goals of the GEP

- Develop intellectual depth and higher level thinking.
- Nurture productive creativity.
- Develop attitudes for self-directed lifelong learning.
- Enhance aspirations for individual excellence and fulfilment.
- Develop a strong social conscience and commitment to serve society and the nation.
- Develop moral values and qualities for responsible leadership

GEP Screening

- As students develop at different rates, we should allow them to blossom at their own pace.
- Parents should not enrol their children in test-preparation activities for the identification exercise.
- Students who are not ready to handle the intellectual rigour and demands of the GEP will struggle to cope with the enriched curriculum and not benefit fully from it. This would put undue stress on the students, and may even cause them to lose confidence and impact their self-esteem.

Timeline for GEP Screening exercise

Stage	Date	Participants	Paper
GEP Screening Exercise	17 August 2022	All P3 students enrolled in government and government-aided schools	English Mathematics
GEP Selection Exercise	18 & 19 October 2022	Primary 3 students shortlisted after the GEP Screening Exercise	English Mathematics General Ability

Parents as Partners in nurturing our students

Commitment. Collaboration. Communication

SENGKANG GREEN
Primary School

Nurturing the Whole Child

- **Commitment** to work together to develop your child with positive habits and routines.
- **Collaboration** between teachers and parents to support your child in learning.
- Regular **communication** between parents and teachers to ensure consistency in nurturing your child.
